

Postdoctoral Fellowships MIT School of Science

The **Office of the Dean, MIT School of Science**, invites applications for its inaugural postdoctoral fellowship program. This three-year cohort-based program is expected to start September 2025.

We seek to assemble a diverse cohort of world-class scientists who are conducting research across disciplinary boundaries. In addition to their research, fellows in this cohort will participate in leadership, mentorship and professional development training.

Appointments may be extended with funding from the department and/or Principal Investigator (PI), subject to MIT's policies on postdoctoral appointments and timelines.

REQUIRED: PhD in scientific field (granted by Aug 2025), scientific excellence and an exceptional ability for innovation and cross disciplinary research. Candidates must submit the following documents: i) Curriculum Vitae (CV); ii) 2-page research proposal, describing how their research crosses disciplinary boundaries; iii) Statement of support and commitment from the MIT faculty who will mentor the research; iv) (Optional) one paragraph broader impacts description of how their appointment aligns with the [MIT Values Statement](#);

Applications will be reviewed by a selection committee comprised of School of Science faculty and must be submitted online. **The deadline for applications is November 15, 2024.** Current postdocs at MIT and international candidates are eligible to apply.

This fellowship carries a stipend of \$85,000, relocation allowance of \$5,000, research allowance of \$15,000, plus employee benefits such as health insurance.

Interested candidates are strongly encouraged to contact potential mentors as early as possible. See [School of Science Research and Academics](#) to find prospective mentors and learn more about the research conducted within the school.
