

Foundation for US Women in Optics Scholarship

- The Foundation for US Women in Optics provides full tuition for selected women who are US citizens to focus on earning a baccalaureate degree in optical sciences and engineering at the University of Arizona, Wyant College of Optical Sciences.
- Eligibility: Be a woman with US citizenship currently enrolled as a freshman, sophomore or junior at the University of Arizona, Wyant College of Optical Sciences.
- Deadline for application submission: May 31.

The Foundation for US Women in Optics will award full tuition (in-state or out-of-state) merit and need-based scholarships to selected undergraduate women pursuing a baccalaureate degree in Optical Sciences and Engineering at the University of Arizona, Wyant College of Optical Sciences. Awards may be renewable annually to support the completion of a student's baccalaureate degree provided that the student has declared a major in optical sciences and engineering and continues to meet performance and financial need criteria.

Eligibility

The Foundation will award merit and need-based scholarships to selected undergraduate women who are US citizens enrolled in a baccalaureate degree program studying optics at the University of Arizona Wyant College of Optical Sciences. Full tuition scholarships shall be awarded to students selected by the Foundation Board based on financial need, academic performance and demonstrated potential to excel in the field of optics. Tuition for fall and spring semesters to support baccalaureate degrees will be disbursed to the student's bursar account.
