Amit Ashok | ashoka@arizona.edu

Office Hours:

GCRB 308

Time: 10:30 AM – 12:00 PM (open office hours) & 1:00 PM – 2:00 PM (by appointment)

Open Labs:

Quantum Optimal Wavefront Sensing & Coronagraphs

GCRB 317

Time: 1:00 PM – 2:00 PM & 3:00 PM – 4:00 PM

Lab Leader(s): Nico Hernandez and Jacob Trzaska

My lab is looking to hire doctoral students to pursue research in quantum-optimal optical super-resolution imaging, wavefront sensing and coronagraphs. Other areas of research interest include free space optical communication (both terrestrial and ground to/from space) and space-based imaging and sensing.

PUFFINS is a NASA Astrophysics Pioneers mission selected for launch in 2030 that will perform ultraviolet polarimetry observations of interstellar dust. We are looking for students interested in optical design and tolerancing, optomechanical design, and stray light and scattering analysis in the first year, and then to be part of building and integrating the instrument in the lab in the subsequent years.
